ABOUT ME

A dedicated and disciplined IT professional with expertise in **front-end development and project management.** Skilled at combining technical proficiency with strategic planning to deliver efficient and user-focused solutions. Highly enthusiastic about learning new skills, embracing challenges, and maintaining a structured approach to drive innovation and personal growth.

EDUCATION

Bachelor of Information Technologies
2023-Present

Azerbaijan State University of Economics - UNEC

I am currently a second-year Information Technology student at UNEC, where I am passionately delving into the depths of IT. With a strong enthusiasm for learning and self-improvement, I recently completed the last semester with a **GPA of 99.23**, and I continuously strive to expand my knowledge, embrace new challenges, and innovate within the ever-evolving field of technology."

Front-End Development
Noverber, 2024 - Present

Texnoera Academy

Currently undertaking an advanced program in Front-End Development, focusing on mastering core technologies such as HTML, CSS, JavaScript, and React.js, along with modern styling tools like SCSS and SASS. Building expertise in creating responsive, user-centric, and performance-optimized web applications. Gaining practical experience in implementing industry best practices and working with modern frameworks to deliver scalable, maintainable, and visually compelling digital solutions.

Front-End Development
October, 2024 - Present

Matrix Academy

Currently enrolled in a comprehensive Front-End Development program at Matrix Academy, focusing on advanced skills in JavaScript, React.js, Bootstrap, APIs, and Object-Oriented Programming (OOP). Gaining in-depth experience in building dynamic, responsive, and user-friendly web applications. Developing a strong understanding of best practices and modern frameworks to create scalable and maintainable solutions. Strengthening problem-solving abilities through hands-on projects and real-world applications.

IT Project Management
December, 2024 - Present

Turing Academy

Currently pursuing a comprehensive program in IT Project Management, focusing on agile methodologies, team collaboration, risk management, and project lifecycle execution. Developing expertise in managing technology-driven projects and delivering solutions aligned with organizational goals. Actively building skills to lead cross-functional teams effectively and ensure project success.

EXPERIENCE

CEO & Founder
July, 2024 - Present

Enthuzone

As the CEO & Founder of a startup team, I lead a passionate and innovative group focused on finding digital solutions to modern problems. Together, we develop impactful and scalable technologies that address real-world challenges, fostering a collaborative and growth-driven environment. Our mission is to push the boundaries of innovation and create meaningful change in the tech industry.

Vice President
June, 2024 - Present

UNEC Digital Volunteers

As the Vice President of UNEC Digital Volunteers, I lead the Digitalization and PR departments, driving initiatives that focus on modernizing operations and enhancing communication strategies. My leadership is centered around fostering innovation, increasing visibility, and empowering the organization to effectively engage with the broader community.
